Acceptance of mySA Gov Digital Licence

15/12/2017

- Services SA recently launched their Digital Licence via the mySA Gov App. This means that SA Driver Licence holders can now access a digital version of their licence on their phone.
- We are currently working with Services SA to more closely understand this program and how we can work with them and our agencies to accept digital licences as POI in the future.
- However, at this time, mySA Gov Digital Licences are not an accepted POI and outlets should continue to request physical POI until further notice.
